View Tasks and Actions in the Action Calendar

Action lists & protocols · https://www.uniform-agri.com/knowledge-base/uniform/action-lists-protocols/view-tasks-and-actions-in-the-action-calendar/

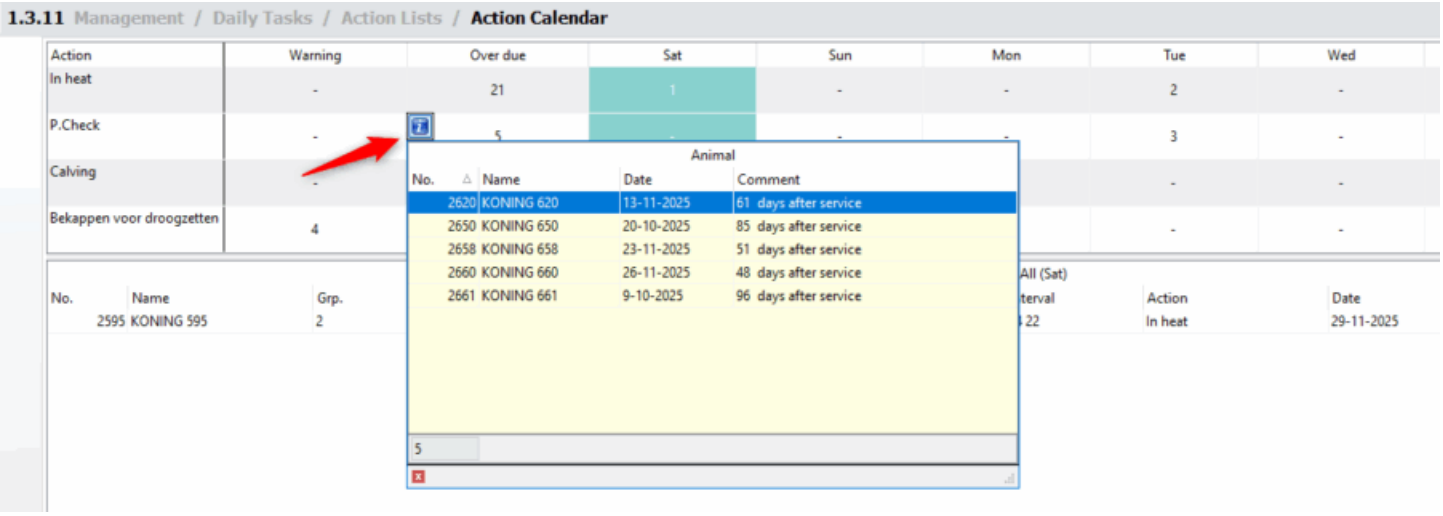

On the **Dashboard**, you can find an action list for **[Heat]**, **[Pregnancy Check]**, **[To Dry Off]**, and **[Tasks]**. It's also possible to view all actions clearly in a calendar view. In this helpdesk tip, we'll show you how to access this and what information it displays.

On the **Dashboard**, click the gear icon to the right of **[Tasks]**, then check **[1.3.11 Action Calendar]**:

Now, when you click the **[Tasks]** button, the **Action Calendar** opens. You'll see a weekly overview, with the current day highlighted. Below the calendar, you'll find the actions relevant for today.

Under **[Properties]**, you can select which tasks you want to have active. By clicking **[i]** in front of the numbers, you'll immediately see which animals are involved.

If you click on an action (vertical line), you'll see a list of animals affected by that action for the entire week, along with the relevant dates.
