Health Event Analysis: disease trends by month and lactation (video)

Health · https://www.uniform-agri.com/knowledge-base/dairy/health/health-event-analysis-disease-trends-by-month-and-lactation-video/

Health Event Analysis is a new part of the **UNIFORM** program that analyzes the frequency of diseases at various levels. You can see how often a certain disease is registered in a month, by days in milk, and by lactation number.
